

Standridge Granite Corp. has been in the granite surface plate industry since 1966 serving companies and government facilities worldwide

Our expertise and experience have been reinforced by our determined adherence to Federal Specification GGG-P-463c and recently to the more modern revision of this specification, ASME B89.3.7-2013 which is the current surface plate standard in use today in the USA.

We are proud to be a certified ISO 9001 manufacturer with an A2LA accredited ISO/IEC 17025 laboratory which meets the requirements of ANSI/NCSL Z540-1.

We offer a complete selection of granite surface plates, steel support stands, and metrology accessories, with substantial inventories of finished and semi-finished products on hand at all times to insure prompt delivery.

Custom sizes and granite machine bases quoted on request.

## THREE-POINT SUPPORT STANDS

for surface plates per ASME B89.3.7-2013 and Fed Spec GGG-P-463c

Stationary "20%" Design

Stationary "Box" Design

Castered "Box" Design

**STANDRIDGE** stands are constructed with three-point suspension to properly support your granite surface plate. All **STANDRIDGE** plates are marked with three suspension points on the bottom of the plate, which coincide with the three suspension points on the top of the stand. The alignment of these three points will ensure the guaranteed accuracy of your plate. Stands are constructed from welded steel to provide exceptional strength and stability. Painted a durable gray finish. A 36" working height is provided unless otherwise specified. Powder coat paint finish or custom colors available for an additional charge.

### STATIONARY STANDS

Stationary stands include leveling bolts on the bottom of each leg.

### CASTERED STANDS with BRAKES

The same quality construction as our stationary box design, but our castered stand is equipped with two swivel locking casters and two rigid casters to allow the plate and stand to be easily rolled. Leveling bolts are located on top of the stand.

STAND TYPES FOR STANDARD PLATES		
Stationary	12" x 18" to 36" x 36"	Box design
Castered	30" x 48" or Larger	20% design
Castered	30" x 48" or Larger	Box design
*Add 20% to cost of stand not manufactured per standard spec.		

### CUSTOM STANDS

Special design and material requirements available.  
Made to your specifications/drawings.  
Design assistance available

### PEDESTALS AND LEVELING JACKS

For maximum support on large plates, an economical solution is a pedestal and leveling jack system. The granite pedestals are custom made to meet the required working height. The adjustable wedge jack between the pedestal and plate provides for leveling.

### SURFACE PLATE COVERS

Prevent abrasive build up on your precision surface plates with **STANDRIDGE** surface plate covers. Each cover is made of heavy gauge leather-like vinyl with a soft inner lining. Be sure to state length, width, and thickness of surface plate when ordering cover. Standard color is **black**.

### PREMIUM GRANITE CLEANER

Penetrates the granite surface to loosen dirt, grime, and residue. It leaves the surface clean, which cuts down wear on precision surfaces.

Sold in pint size squeeze bottles.

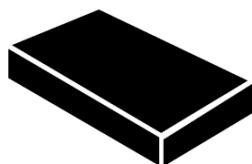

## STAND SPECIFICATION FORM

### STANDS FOR GRANITE SURFACE PLATES

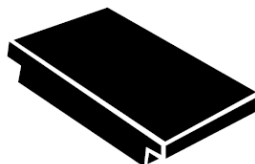

This form is required only when ordering a stand for customer's existing plate.

STANDS ARE CUSTOM ORDERS. THEY CANNOT BE RETURNED. PLEASE MEASURE CAREFULLY! BEFORE WE CAN PROCESS YOUR ORDER, WE MUST HAVE THE FOLLOWING INFORMATION:

## BLACK GRANITE METROLOGY ACCESSORIES

Includes Calibration Certificate traceable to N.I.S.T.  
or equivalent national or international organization  
**ISO 17025 accredited cert available at extra charge**

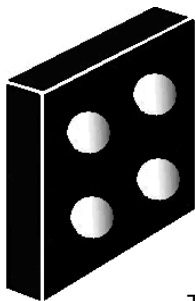

**3-Face**  
One large face and two edges flat and square to each other with lightening holes

**4-Face**  
Two large faces flat and parallel and two edges flat and square to each other and large faces

Calibrates X-Y-Z axis on:  
CNC machines  
Milling machines  
Coordinate measuring machines

Number of lightening holes vary with size of square

**5-Face**  
One large face & four edges flat, square & parallel to each other with lightening holes

**6-Face**  
Two large faces parallel & four edges flat, square & parallel to each other and large faces with lightening holes
